Lafourche Mail Steamers on Panama, leave New York on the 5th and 20th of each month.

Nicaragua via Nicaragua, leave New York on the 5th and 20th of each month.

The Havana Steamers leave New York on the 21, 26th, 28th, and 31st of each month, and Charleston S. C., on the 5th and 19th.

The New York steamers of the 5th and 17th are the only ones under strict contract with government, to sail on those appointed days. Departures are frequently made by the others, to avoid vexatious quarantines, &c.

The mail contract with the Charleston steamers is kept up the year round.

The mails for California close at the Boston post-office at 2 P. M. on the 4th and 19th of every month, to go by way of the steamers leaving New York on the 5th and 20th.

The Overland Mail for California leaves St. Louis every Monday and Thursday. Letters designed for it should be marked "Overland, via St. Louis."

The receipt of letters at the Bangor Post Office, by these steamers, may be expected the second day after their arrival in New York.

BANGOR POST-OFFICE.

Post Office open from 7½ A. M. to 7 P. M., and from 2 to 7½ and 8½ to 9 P. M. Sundays open from 8½ to 9½ A. M.

Western mail closes at 10 o'clock P. M.; North Carmel via Hermon at 2 P. M.; all others close at 9 P. M. All mails close at 8 P. M. Sundays.

The time of the arrivals and departures is by the contract times. There are no arrivals or departures on Sunday.

The North Carmel via Hermon stage arrives and departs on Tuesday, Thursday and Saturday.

The mails to Brownville via Bradford, to Dexter via Kenduskeag, and to Greenville, are tri-weekly. Those to Brownville, and to Greenville leave on Monday, Wednesday and Friday, and return on the alternate days. That to Dexter via Kenduskeag leaves here Tuesday, Thursday and Saturday, and returns Monday, Wednesday and Friday. The other mails are daily.

Eclectic Magazine for 1859.

GREAT ARTISTIC ATTRACTION.

25 *Beautiful Portraits in January Number!*

To all Lovers of Choice Reading.

1. Your attention is respectfully invited to the character, contents, portrait embellishments, and sterling literary value of THE ECLECTIC MAGAZINE.

2. For fourteen years THE ECLECTIC has found favor with the public and high commendation from the press. It is now in its forty fifth volume.

3. Its design is to present to its readers the choicest treasures of thought, and the ablest productions of European writers, as they appear in the Reviews and Periodicals of Great Britain.

4. Its combined excellencies and permanent value give it a just claim to a place in every well-selected public and private library.

5. It contains the cream from seven Foreign Quarterlies.

6. It contains the cream from nine Foreign Monthlies.

7. It contains articles from the ablest pens of England.

8. Forty fine Steel Portraits embellish it in 1858.

9. The forty Portraits are worth the price of the work at 12½ cents each.

10. The subscriber gets double the worth of his money. Considering what it contains, THE ECLECTIC is the cheapest, the safest, the best, the most desirable of all the monthlies. Try it. You will find it true. It saves time. It saves money.

11. No intelligent family—no young lady—no young gentleman, will wish to be without its rich treasures of knowledge, when once examined.

12. Its instructive, educational influences on the mind are worth ten times its cost.

13. The public press, far and near, give THE ECLECTIC strong commendations. Eminent men do the same.

"The merits of THE ECLECTIC need only to be known in order to be appreciated. THE ECLECTIC is worth many times its cost."—*New York Observer.*

We have received many pages of commendation. We add the CONTENTS OF JANUARY NO., selected from six Quarterlies and seven Monthlies.

REMOVAL.

United States and Foreign

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Reissues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1855.

It affords great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has seen in that capacity in constant correspondence and intercourse with this Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I take therefore pleasure in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments so eminently fit him for the business in which he is about to engage.

EATON'S ARITHMETIC.

BANGOR, Oct. 30, 1858

At a meeting of the School Committee, held this evening, it was

ORDERED—That EATON'S ARITHMETIC be introduced into our Intermediate, Grammar and Select Schools, instead of Greenleaf's, now in use. Attest:

(Signed) FRED'K H. SHAW, Sec'y.

The decided satisfaction which this book gives in the school room, and its unprecedented success, prove that it is a work of rare merit.

All those who are dissatisfied with the books now in use, are requested to give the Eaton a examination.

They will find it the most clear, concise, logical and practical treatise on written Arithmetic extant, following as it does the plan of Colburn's *First Lessons*—the two make a complete and popular series.

Copies furnished for examination on receipt of postage—18 cents—on application to

BROWN, TAGGARD & CHASE,

Bangor, Jan 7, 1859. 3d WOOD & BISHOP.

To the Honorable Senate and House of Representatives of the State of Maine, in Legislature assembled, January, 1859.

THE undersigned, inhabitants of Houlton and vicinity, in the county of Aroostook, beg leave respectfully to represent, that there is great need of a communication by railroad from said County to the seaboard, and that the most easy and convenient mode of obtaining such communication is by connecting said town of Houlton with the St. Andrews and Quebec Railroad, which will probably be completed during the next season to a point within six miles of said Houlton:

Therefore the undersigned pray that they, their associates, successors and assigns, may be incorporated by the name of "Aroostook, St. Andrew's Branch Railroad Company," with the power, and for the purpose of building a Rail road from any point they may select in said town of Houlton to any point on the East line of the State, and by any route said Company may prefer, with a view of connecting with said St. Andrew's and Quebec Road, and that said Company may have all the privileges and immunities usually granted to such corporations.

DR. HOBENSACK'S

Worm Syrup and Liver Pills,

PROBABLY one reason why Worm Medicines *all* frequently fail of any *good effect*, is the fact that they contain no qualities except as *Worm Killers*. Consequently in many instances where we mistake the symptoms of disease and doctor for worms, when the cause of disease is not worms but a *derangement of the system and consequent debility and all health, no good result follows*, whereas in the use of *Dr. Hobensack's preparations*, of *being anacrites remedial agents*, as well as *worm killer*, the patient immediately gets well, though no worms are brought away.

Thus it will be readily seen that it possesses many *advantages* over other worm medicines, as it is not only sure to kill and bring away the worms but builds up and restores the patient to general health, besides.

Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your buildings at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person, with a jack-knife can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of Albert Noyes, Central Street, Bangor, where I shall remain for a few weeks. Town rights for sale.

with an old Dutch farmer, who clears $10,000 a year on the products of his farm. He asked him what is the secret of good farming?—his reply was manure. He annually applies 1000 cords of manure upon his farm, and employs 42 men. He raised 110,000 cabbages, large and small, which averaged him 2 cts apiece. Our soil is as good for the crops we raise as any in New Jersey or in the United States.—What we want to know is the character of the soil, the quantity of manure needed, and the amount of labor. He thought it was not necessary to seed grass lands at all, but to plough deeper. The grasses will grow spontaneously, one crop coming up until the soil is exhausted, then another taking its place, and so on.—We need to know what proportion of agencies is required with certain soils to produce crops. Mr Webster observed his land in Marshfield with pogies, until the neighbors were driven away by the stench—but it only did good a few years, and then the properties of the land were exhausted.

Mr Lancaster, of South Kennebec. What is needed is to overcome the prevailing indisposition to engage in farming pursuits. The popular idea that farming don't pay, has driven large numbers of our most intelligent and enterprising young men out of the business.—The current has changed. People are going into farming who have been engaged in other pursuits. They are beginning to find it *will* pay, or perhaps it is because they have no other means of livelihood.

Mr Stickpole of West Penobscot, spoke of the Society as flourishing. Crops within the limit of the Society have increased 50 per cent. Good crops of corn, potatoes and some kinds of grain—some crops of barley as high as 57 bushels to the acre.

Mr Cushman of Aroostook spoke of the value of the grass crop, and alluded to the remarks of Mr Bailey, that it was not necessary to sow grass seed but that it would grow spontaneously. This was a new idea to him; and he called for information on the subject.

Mr Hammatt of Penobscot had heard the remark, and was surprised that it should be made at this Board in the face of universal practical experience. He could only account for it on the ground that the gentleman who advanced the novel idea was only an amateur farmer, who was probably more at home in the management of a ship than in the cultivation of the soil. His experience told him that anything *but* grass would grow in the absence of seeding. The fault with us is, we have seeded too light—grass will not take on poor land.—My practice is not to sow clear seed—but to sow in the chaff and mix with manure; and it is still more certain to grow if sown near the cutter.

Dr True did not think it worth while to discuss this new theory. He was pleased with the remarks of Mr Hammatt. The idea suggested of sowing grass seed near the surface and with the chaff, commended itself to his judgment.

THE RECENT TROUBLES IN KANSAS originated (says the Providence Journal) with the pro slavery men, who broke the contract that had been entered into for the pacification of the Territory, and which was based on the general principle of oblivion of former offences, on both sides. In violation of this, a free State man, named Rice, was arrested and confined at Fort Scott, and it was threatened that he should be hung without a trial. He was confined in a cold room and chained to the floor, and otherwise barbarously treated.—Montgomery and his men rescued him. They were retaken, and in the struggle they shot a man. Subsequently, they committed acts of violence that were unjustifiable, although they had been provoked to it by shameful wrongs on the other side.

Some slaves escaped from Missouri, and a lawless band, assuming that they had been carried off by free soil men, crossed the border and made a general foray, drive off thousands of cattle, and committing the usual border ruffian outrages. This was returned by a similar incursion, carried on in a similar temper, from the Kansas side. Fresh retaliations followed, and the war was kept open with continual outrages. Although there is no doubt where the original wrong commenced, it is just as plain that the Federal authority should interfere, if the territorial is too feeble, to enforce the law and preserve the peace.

THE POSITION OF THINGS IN MEXICO. An intelligent correspondent at Washington states that the church of Mexico and the regular army and the wealth of the country are on the side of the reactionary party, now headed by Miramon. There is scarcely a doubt that he will hold in check, if not defeat and disperse, the forces of the liberal party. This will not extinguish that party, because it is founded in the deep hatred of race against race. Juarez himself is of pure Indian blood, and so are most of his principal chiefs. The struggle between the two parties is, therefore, likely to end in a war of races—that is, of Indians and mixed Indians with the race in which the Spanish blood predominates.

It is such a country as this, devoured by an intestine war of races, and such a *people* as this, that we are expected to annex in a lump, for the purpose of extending the area of slavery. In regard to the fabled measure for the new acquisition,—it will be remembered that a week or two ago Senator Mason reported a bill conferring upon the President full power to employ the army and navy for the protection of American interests in Mexico, &c., and for the redress of grievances sustained therein.—This measure is to *supersede* the plan recommended by the President, of a military occupation of Chihuahua and Sonora.

The rolls of the British Navy at the 1st of January, shows that it consists of 821 vessels of every description, exclusive of 167 gunboats. The number of vessels in commission and doing duty in all parts of the globe is 176. There are also eleven line-of-battle screw steamers of from 80 to 131 guns each, in course of construction, together with 16 other screw steamers in various stages of progress. The navy is pronounced in a most efficient state, both as regards the number of vessels, and the manner in which they are equipped.

There are in the American navy ten ships of the line, ten frigates, twenty-one sloops of war, three brigs, one schooner, eight screw steamers of the first class, six of the second class, nine of the third class, two screw tenders, three side wheel steamers of the first class, one of the second class, three of the third class, one side-wheel tender, three store vessels, and five permanent store and receiving ships. The total number of vessels is eighty-eight.

THE DYING STRUGGLE OF THE STRAIGHT WHIG PARTY.—It will be seen, by our Court R-port, that the Straight Whig Party are kicking their last kick. Having kicked themselves into the Hunker Democratic Party, they are now kicking at the poor paper makers who furnished the paper foundation on which they did their most vigorous kicking. We do not know anything about the merits of the present controversy, but whatever they may be, it is evident that the Straight Whig Party continue true to their principles, and mean to die game.

Mr. Stephenson, the builder of the Eddystone light house, found by actual experiments, that the force of the breakers at the Bell Rock lighthouse, on the Atlantic side, was equal to three tons to a square foot. A boulder presenting a square yard of resistance to the waves would have the force applied to it after a long storm, of twenty seven tons! Who can wonder that heavy rocks are frequently removed, even up an inclined plane, by the simple yet terrible power of disturbed waters!

The Kentucky Democratic Convention consisted, says the Cincinnati Commercial of six hundred and seventy-two delegates, subdivided thus:

Ex Governors,	2
Generals,	14
Colonels, (estimated)	493
Majors,	97
Captains,	35
Squires,	13
Total,	672

The candidates were all Colonels, and half were old Whigs, "every a one" of whom—the old Whigs—received a solitary crumb of comfort in the way of a nomination.

TERRIBLE CYCLONE IN THE CHINESE SEAS. A terrible cyclone visited Swatow on the 21st of September, destroying almost the entire shipping, both native and foreign, and causing immense loss of life among the Chinese. "Large vessels," says the Hong Kong Mail, "were carried a long way inland by the huge waves; and not only were houses unroofed, but some of them had their walls blown down. Even the hurricane which visited Bombay at the commencement of 1855 was inferior to this, before which everything went down that offered any resistance." Two hundred Chinese junks were destroyed, and it is supposed that 5000 persons lost their lives. There were twenty foreign vessels in port, and all of them save one were swept away from their anchors by a great wave, twenty-five feet high, which carried them about two miles over a mud flat which had but two feet of water on it in ordinary times.

THE SCOURING OF THE WHITE HORSE.—The "cabalistic" words, to which we have recently alluded, are thus briefly explained:

"The white horse is a representation of a horse cut on one of the chalk hills of Berkshire. Tradition says that it was cut out by King Alfred the Great, who lived in that part of the country. The scouring of the horse is the raising the chalk which has become discolored by exposure and by the wastes from the hill. On these occasions it has been customary to hold a kind, of festival at which some of the old English games were played."

CUT THE TWIGS OF SIN.—Correct your little faults, and you will gain courage and will overcome great ones. No man arrives at excellence but through sharp watching and constant curbing of his faulty tendencies in the smallest matter. Washington and Franklin drew up rigid rules, and proceeded upon thorough system, in disciplining themselves, from early life; in their footsteps every young American should be proud to follow. Were less empty praise showered upon those fathers of the nation, and more earnest copies attempted of their grand lives, we should behold a different rising generation from the present.

It is said that the hogs in Iowa have such long noses that the settlers employ them to plow the fields. The practice is to bury a corn cob on one side of the lot and place the hog opposite to it on the other end, when the porker scenting it immediately digs his snout into the soil, and pressing forward, turns a furrow equal to that of the best plow, right up to the cob. It strange should use in the direct road, the Iowa hog does not hesitate or work around it, but by use is open with his snout and goes on. This is following the nose to some purpose.

HAYTI. Later, but not very definite advices have been received in New York. The black Emperor had marched, at the head of his army, against the insurgents, but had halted and fortified himself. One report said that he had been defeated; but here was no authentic intelligence to that effect.

MAN-OF-WAR'S-MEN BAPTISED. Twelve sailors belonging to the United States Navy, were baptised at the Brooklyn Navy Yard, on Sunday last, in the presence of nearly a thousand of their shipmates. After baptism the Lord's Supper was celebrated on board of the receiving ship North Carolina.

A country girl, coming from the field, was told by the woman that she looked as fresh as a daisy blossom with dew! "Well, it wasn't any any fault of that name, but it was Steve. Jones that kissed me;—said him that every one in town would find it out."

The Aroostook Railroad.

MR. EDITOR.—Unquestionably the subject matter of the Aroostook Railroad is now well before the people of our whole State. The time for action, all concede, is at hand. Legislation of some kind is expected. Already have orders relative to the matter been introduced and referred in our Legislature.

Governor Morrill, in his Message, alludes to the active emigration which has been going on into the county of Aroostook, giving earnest of the speedy settlement of that region, and at the same time inviting the aid and co-operation of the State.

In his last year's inaugural address he spoke more at length, as follows:

"Intimately connected with this subject, having the most important bearing upon the growth and prosperity of the State, is the settlement of our territory with intelligent and industrious citizens. The Aroostook country, by far the most fertile of our lands, makes slow and imperfect progress in settlement for the want of facilities for transportation and intercommunication. If any method can be devised by which an object so desirable can be promoted, it would be for the highest interest of the State, at once to embrace it. It has ever been regarded an object of the deepest solicitude, and the Legislature has from time to time appropriated means for the construction of roads for this purpose. These are necessarily imperfect, and, compared with modern modes of transportation, unsatisfactory.

"I invite your careful consideration of this whole subject, in a spirit of enlightened liberality, and cannot too urgently press it upon your attention."

This portion of the State, especially, is deeply interested in the success of this Railroad movement; and other parts of the State, therefore, look to us to furnish the mental energy—the motive power—if not the very sinews of war—just as we looked to Portland to carry out the Grand Trunk project.

Are we fulfilling the reasonable expectations of our friends in this particular? What are we doing? I am not aware that any plan to unite the various interests here has been conceived, and it is an obvious fact, that unless Bangor presents an united front, little can be accomplished.

A strong effort is needed to accomplish anything, before the Legislature or anywhere.—There is need of the united influence and personal aid of all persons in favor of the project, including as well individuals who will not invest funds in the road as those who will.

But what is the most feasible plan to secure State aid? This is the question. It seems to me that we must look to the State lands, for there is but little prospect of obtaining aid from the State while the public lands continue to depreciate for years to come as they have from the beginning.

The present policy of the State in regard to the public lands, is manifestly defective. It is time that some definite and expansive policy in regard to the settlement of the Aroostook territory should be adopted. It is true that emigration is invited, by extending to actual settlers favorable terms—putting the land at fifty cents an acre; but the public would have a greater inducement to take up the lands there at a dollar an acre, with the prospect of Railroad communication, than at fifty cents without such a prospect.

The State pays yearly thousands of dollars for taking care of the lands. The policy of donating lands to institutions of learning, has been given up, on the plea, principally, that they (the lands) should be reserved to meet the public debt, and so, the while the State is paying out money to take care of the lands, which are annually growing worse, on account of depreciation.

Should the policy of the State be changed, and the land sold to the several towns at twenty-five cents per acre, giving a credit of ten years, without interest, it could not be a loss to the State, and it might induce people to purchase lands, if they knew that at some future time a railroad was to be built, connecting them with other parts of the State.

Or, if the several towns in the State could have a right to sell a portion of the lands, and loan one or two hundred dollars of its funds to actual settlers, taking security therefor, it would enable them to purchase seed, crops, cows, calves, &c. The first year they could raise a sufficient crop to support their families, the second year obtain cows, then oxen and other stock, and at the end of a few years have all the comforts of life.

My present purpose is not to go into argument in favor of the road—I take it for granted this is sufficiently understood by all—but to call attention to the necessity for action—immediate and decisive action—to accomplish something definite. Let one and all take some interest in having something done to build up our city and develope Aroostook. B.

A gentleman was referring, in the presence of Hon. Stevens, to the possibility of Mr Buchanan's turning against the South for the purpose of retrieving his lost fortune in Pennsylvania, and asked Mr. Stevens what he thought would be the result. Mr. Stevens replied that there would be no trouble about that, as the South could reclaim him at any time under the fugitive slave law! The inquirer seemed perfectly satisfied.

A Florida paper says that a new party is being organized in the Florida swamps, to be styled "The Sons of the Soil." One of its objects is said to be to proscribe citizens of Northern birth. The party, we surmise, is composed solely of "hog drivers."—*Journal of Commerce.*

AN UNFORTUNATE MAN.—Mr. Lewis Danforth of Anson, was brought in on the cars on Friday night, from Boston, where he has been residing for some time past, and was on Saturday carried to his father's home in Anson. A short time since Mr. Danforth broke his leg; and after being confined for some time, he got out on crutches, and in attempting to chaff some hay in hayseed, clipped all the fingers off of his left hand. The last accident has brought on a fever which has nearly deprived him of the use of his limbs.—*Skowhegan Clarion.*

FATAL ACCIDENT.—In Ellsworth, a few days since, Mr Stanburn Avery was passing by the camp fire of a party of lumbermen and stopped to warm himself. He had been there but a few minutes when the tree near which the fire was kindled fell, striking him upon the head with such force as to kill him instantly. Jonathan A. Moulton, a young man who was sitting by the side of Mr. A. at the time of the accident, had one of his legs broken.

ON TRIAL

Jonathan R. Holt et al vs. Wm. A. Blake, George A. Fairfield, George W. Ladd, Albion P. Bradbury, and Francis W. Hill. The plaintiffs, paper makers in Hampden, furnished paper for the Bangor Journal newspaper, when it was published by W. E. Hilton & Co., and claim that the defendants made themselves liable to pay for it. The balance of account sued for is $758.43. Defendants plead severally denying their liability. Chas. S. Crosby and Waterhouse for plff.; A. Sanborn for defts.

NUMBERING THE HOUSES.—Some dissatisfaction has been expressed to us at the manner in which the numbering of the houses and lots in our city is going on; and we have been requested to call attention to the subject. One allegation is, that the numbers are run up faster than the lots will warrant in some cases. It is well known that this is a private enterprise—that is, not under the authority or by the command of the City government—and that no man is obliged to have his house numbered unless he desires it,—and no demand for payment can be made unless he permits the service to be tendered. We do not know as to the validity of the complaints made—but would suggest that any dissatisfaction which is felt should be expressed at once to the person who is performing the work,—that errors may be corrected before the work is finished.—There may be disagreements in the matter—and if so, they should be settled by some authority which both parties will respect—say a Committee of the City Council.

The weather in this vicinity for the past few days has been very mild and pleasant for the season—but the sleighing still continues excellent,—the temperature remaining just below the point where the snow would be affected. The quantity of snow in this part of the State, and we believe in all northern Maine, is much less than in the central and western portions. Upon a visit to Kennebec and to Portland last week, we estimated the quantity at one half more than on the Penobscot. But we have amply enough here for practical purposes. There has rarely been a more favorable season for operations in the woods, and for all other business movements.

The Penobscot river is re-opened to Frankfort, and will probably remain open as far up as that point, (with some and from the tugs, perhaps,) for the remainder of the season.—Two vessels were towed up to Frankfort on Tuesday, and the channel was open yesterday.

NEW MAP OF AROOSTOOK.—Persons desirous of seeing the new Map of the northern portion of this State, which has been made by Mr L. H. Eaton, by order of the Governor and Council, can do so by calling at his office this (Friday) afternoon, when it will be hung up, previous to its being taken to Augusta.

SUDDEN DEATH.—Peter Dugan, aged twenty-eight, employed as an hostler at Ward's stable in Bromfield street, Boston, died while partaking of his dinner on Sunday. He was about his usual work in the forenoon. Dugan was formerly hostler at the Penobscot Exchange stable in this city.

THE CRUELTY CASE IN CALAIS.—Mary Jane Clark, prosecuted for excessively beating her servant girl, Dolly Dean, who subsequently died (of croup as alleged), was convicted at the recent term of the Court in Machias, and sentenced to 60 days imprisonment in the county jail, and to pay a fine of $60.

SELF OPENING AND SHUTTING GATE.—We have examined the model of the self-adjusting gate, designed for farms. It is so arranged that on approaching it in a carriage or with an ox team, a lever is pressed up by the wheel, which causes the gate to open, and on passing through the wheel passes over another lever which closes it, so that a person has no occasion to get out of his carriage or make any stop in passing one of these gates. The lightest one can be erected for from six to ten dollars. Mr. Ezra Malotte of Bloomfield, is agent for a portion of the State, and the balance is owned by a gentleman in Madison.—*Skowhegan Clarion.*

THE COLD SNAP IN AROOSTOOK.—The following from the Pioneer, shows the state of the weather in that vicinity during the late cold snap:

Monday morning, before sunrise, mercury stood at 30 deg. below zero; Tuesday 43 deg below; Wednesday 41 deg below; Thursday 22 deg. below, a sprinkling of snow in the course of the day. Friday, 2 deg. above—Saturday, 14 deg. above and snowing like fun. The coldest day last winter was 30 deg below zero.

The Belfast Age stated last week that the bay was frozen to Owl's Head, so as to render it safe passing to Long Island on the ice, a circumstance that seldom occurs.

PAINFUL ACCIDENT.—The Portland Advertiser learns that on Tuesday last at Mr. Abraham Merrill, of Westbrook, was employed at the carriage shop of Mr. J. S. Richer, on Green street, at the operating machine, the thumb of his left hand was caught in the machine, which tired his arm through the rollers close to the shoulder, crushing it in a shocking manner.—His arm was broken once above the elbow and twice below; the bone beneath the elbow running through the flesh, and even through the edge of leather which was then going through the splitting process.

STEAMER EASTERN CITY.—The annual meeting of the Calais Steamboat Company was held on Monday, the 17th inst. From the Treasurer's report we learn that the earnings of the Eastern City for 1858 were, from

The expenses in 1858 were about $2500 less than they were in 1857, and $5000 less than in 1856. The Company is now clear of debt, and has on hand about $6000 in cash, and coal paid for.

STORE BREAKING IN PORTLAND.—The clothing establishment of Mr L. Freeman, No. 165 Fore street, (under the American House,) was broken into on Tuesday night, and robbed of various articles of clothing to the value of about $200.

FATAL ACCIDENT AT BIDDEFORD.—A man by the name of John Simpson, watchman in the Laconia Manufacturing Company's mills, was instantly killed Wednesday morning by being caught in a shaft revolving at the rate of 145 times per minute.

The Rockland Democrat says that the Gas Works of that city were sold on Saturday, to Dr Tucker, of Stoughton, Mass. for $7000.—They probably cost about $40,000.

SAD CASE OF DROWNING.—On the 20th inst, a Miss Philbrook, of Islesboro, was drowned, by falling through the ice, while returning from a neighboring island. She had passed safely over the ice once, but before her return the tide had risen and floated some loose fragments near the shore, and in attempting to pass these she sank between two cakes and drowned.—*Belfast Journal.*

EXPORTS AND IMPORTS OF PORTLAND IN 1858. The imports at Portland in the year ending Dec. 31st, 1858 were $1,289,127, the exports to foreign countries being payable for the year ending Dec 31st, 1858 were 1,337,065, duties collected in 1858 were $252,444,45.—*State of Maine.*

THE ICE PRETTY BROKEN.—Our harbor is again accessible to Muller's Wharf. Through the enterprise of some of our merchants, the steam tug Nautilus, of Bangor, was employed to open a channel, and the operation was satisfactorily completed at noon on Saturday last. The distance opened by the boat was nearly four miles, and the thickness of the ice varied from 5½ to 8½ inches. Fortunate for Messrs. Chase & Patterson, S. A. Howes & Co., and D. Lane, Jr., that the Nautilus was here, for in her absence they must have lost considerable property. The cargoes of the R. P. Chase and Masurka were both fully insured, but nothing upon either vessel. Both vessels were drifting all the night previous to their being rescued, surrounded by acres of ice.—*Belfast Age.*

THE TARIFF.—*New York, Jan. 26.*—The Times' Washington correspondent states that Secretary Cobb is opposed to the proposition of the House Committee of Ways and Means for the increase of the tariff. He has received assurances from persons in this city, whom he considers reliable and competent to give an opinion, that the revenue from imports will reach $63,000,000, which sum he considers sufficient for all contingencies. He is afraid also, if the present tariff is interfered with, that the movement in favor of protection will gain the ascendancy and control the action of the new bill.

STRONG TESTIMONY. The following certificate of a remarkable cure wrought by this valuable remedy, will, no doubt, command attention and convince every one that this medicine has extraordinary virtues. Read, read!

This may certify that I have been a great sufferer and long with inflammatory rheumatism, for 16 years. In between times I have tried many different applications and different Liniments, but found no relief. The first of October 1858, I began to use Rev T Hill's Canker Remedy and Pain Reliever. The first application gave relief of pain in less than 10 hours, and began to reduce the swelling the next morning. In three days the pain and swelling was wholly gone. ALBERT LYFORD

Congressional.

WASHINGTON, 27th.

SENATE.—A report was adopted providing for printing five thousand extra copies of both majority and minority reports on acquiring Cuba.

The Senate adopted a motion directing the Secretary of Navy to furnish information concerning Lieut. Craven's survey for the Atrato Ship Canal

The Pacific Railroad bill was then taken up and amended in several partiles are.

One of these amendments by Mr Douglas provided that all desert lands within forty miles of the middle section of the road should be open to pre emption at ten cents per acre.

Another by Mr Doolittle added a section intended to prevent speculators from keeping back the lands from settlement.

Another by the same made it the duty of the Secretary of the Interior to advertise for proposals for the Northern and southern routes leaving the central as it is, and report to Congress at the next session. These were severally adopted. A protracted discussion ensued.

Mr. Doolittle's amendment, to advertise for estimates for the three routes having been adopted as a final section to the bill,

Mr. Summons of Rhode Island moved to strike out all between the enacting clause and the said final section—which was carried, thus killing the bill.

Yeas—Bates, Bell, Benjamin, Bright, Cameron, Chesnut, Clark, Clay, Clingman, Crittenden, Davis, Dixon, Doolittle, Durkee, Fessenden, Foot, Green, Hale, Hamlin, Hammond, Hunter, Iverson, Johnson of Tenn., Kennedy, King, Mason, Pearce, Reid, Rice, Sebastian, Shields, Simmons, Slidell, Stewart, Thompson of N. J, Toombs, Ward—37.

Nays—Allen, Bayard, Bigler, Broderick, Brown, Chandler, Douglas, Fitch, Fitzpatrick, Foster, Gwinn, Harlan, Jones, Polk, Pugh, Seward, Trumbull, Wade, Wilson, Yulee—20

The result caused Mr Gwin to remark, bitterly, "Little as this government is all I ever expected to get from the Congress of the United States."

Mr Pugh of O., moved to lay the bill on the table

Mr Gwin of Cal, moved to recommit, and Mr Trumbull of Ill moved to recommit with instructions, both of which were lost.

After some debate the bill as amended was put on its final passage.

Mr Broderick of Cal., said, incidentally, that as his name could be called before his colleagues, he wished to know if Mr Gwin approved of the bill, as it now stood, that he might vote against it.

Mr Gwin of Cal, replied that his colleague could not learn his sentiments till his name was called.

Mr Broderick—Then I shall reserve my vote. (Laughter.) He afterwards voted with Mr Gwin.

The bill was read three times and passed being only the enacting clause and Mr Doolittle's substitute.

Yeas—Messrs. Bell, Bigler, Bright, Broderick, Cameron, Chandler, Clark, Crittenden, Dixon, Doolittle, Douglas, Durkee, Fessenden, Foot, Foster, Gwin, Hamlin, Harlan, Houston, Jones Kennedy, Polk, Rice, Sebastian, Seward, Shields, Simmons, Stuart, Trumbull, Wade, Wilson, 31.

Nays—Bayard, Benjamin, Brown, Chesnut, Clay, Clingman, Fitzpatrick, Green, Hunter, Iverson, Johnson of Tenn. King, Mason, Pearce, Pugh, Reid, Slidell, Thompson of N. J, Toombs, Yulee—20.

Mr. Bell of Tennessee moved that the name of the bill be a bill to authorize and invite proposals for the construction of a Railroad from the Valley of the Mississippi to the Pacific Ocean, on three separate routes Agreed to.

Three thousand dollars are appropriated for the expenses.

Mr. Gwinn moved that as the Senate had consummated the greatest farce ever accomplished by any legislative assembly, it now adjourn

Mr. Bell called Mr. Gwinn to order, but evidently without changing his opinion.

Adjourned.

HOUSE.—The House resumed consideration of consular and diplomatic appropriation bill and refused to concur in the amendment of the Committee of the Whole curtailing the number of foreign ministers

The House also rejected Mr Crawford's amendment reducing the sum appropriated for the suppression of the slave trade. The question was then taken on striking out the entire clause containing this appropriation; negatived 63 to 28. The bill was then rejected, 85 against 99

Mr Branch of N. C, moved a re-consideration

Mr Letcher of Va, urged the passage of the appropriation bills necessary to keep the government together and to avoid an extra session.

Mr Nichols of Ohio said it seemed to be the sense of the Republicans that if they were allowed to vote on certain amendments such as striking out the mission to Persia, the bill could be saved.

Mr Letcher said no such opportunity could be given He had understood the speaker to say the propositions in connection with the bill were presented in the only shape they could be voted on. If there was more concilation there would be less difficulty.

Mr. Giddings of Ohio said his vote depended on whether a bill was to be reported appropriating thirty millions of dollars for the purchase of Cuba. He would stop the administration where it is.

Mr Letcher replied that such a bill had emanated from the Committee on Foreign Affairs

Mr Giddings said he would take no steps in that direction

The speaker reminded him of the irrelevancy of the Cuban question at his time.

Mr Hughes of Ind, said if the speaker had stated the objection to the question of Mr. Giddings this matter would not have come before the House

The speaker said he did not hear the gentleman

Mr Hughes replied that he could not help that

The Speaker—I hope the gentleman did not intend to be rude to the chair.

Mr Hughes—No, but if I had I should have only been paying off an old debt.

The Speaker—If the gentleman has any personal quarrel with the Chair the House is no place to settle it.

Mr Hughes—I know that and say the same to the speaker. This colloquy occasioned considerable sensation.

After further debate, the vote by which the bill was rejected was reconsidered.

A motion to strike out the Austrian mission was disagreed to by 71 against 120.

Motions to strike out missions to Switzerland, Rome and Hanse Ayres were severally negatived The mission to Persia was stricken out

The House again voted on the bill and again rejected it by 91 against 94.

Mr. Washburn of Illinois moved to reconsider the vote, and (!!) that motion on the table Pending which

Mr Hughes wished to say that he regretted having made the remark to-day which seemed dourteous to the chair, and took pleasure in making this statement.

The Speaker responded to Mr. Hughes, expressing himself exceedingly gratified at the disclaimer, and said he had no purpose to-day, or at any other time, than to treat Mr. Hughes with the most perfect courtesy. Adjourned.

WASHINGTON Jan. 27.

Jasper S Whitney, connected with the survey of Sonora under Capt Stone, has arrived here with despatches to the State Department from Capt Stone, the acting General at Guaymas, and from the commander of the sloop-of-war St. Mary's.

He brings dates to 23d Dec. from Guaymas. He represents the condition of Sonora as deplorable in the extreme. Pesqhiera, the Governor, has failed in his attempt to raise troops.

The people at Hermosillo rose and liberated two citizens, imprisoned by Pesqhiera's order, and paraded the streets, carrying them in triumph and shouting, "Viva Los Americanos, Death to Pesqhiera," &c.

The whole country is expecting and anxiously awaiting the occupation of Sonora by the American government, and the President's message will be received with enthusiasm.—Pesqhiera was absent in Sinaloa and about to attack Mazatlan, and the opposition needed only a leader to overthrow him without a struggle.

It appears from the official report that there are one hundred and thirty-three salaried Consuls whose salaries amount for the year 1857 to $231 544. The fees returned by them were nearly $111,000, leaving a difference of $150,000 to be paid from the treasury.

There are about two hundred and seventy consular offices paid by fees only

Hon Erastus Corning, President of N. Y., Central Railroad, Chas Moran, President of N. Y., and Erie Railroad, J Edgar, President of Pennsylvania Central Railroad and John W Garrett, President of Baltimore and Ohio Railroad, are holding a conference here to-day. Their sessions are private, but they have in view the bringing about of a uniformity of action between the four great Railroad lines as to fares, freight charges, etc.

Mr Ambrown of Worcester has been appointed by the President, Navy agent at Boston

New Orleans papers contain details of Hayti news to the 1st.

Gen Geffrard at the last dates held the department of Aribonite with his head quarters at Gonaives, where he had two thousand men composed part of the troops of the department.

Soloupque at the head of six thousand men reached the seaport of Anchaye on the 1st of May to attack Geffard.

Geffard's family was imprisoned when his flight from Port Au Prince was discovered.

Arrival of the Overland Mail.

ST. LOUIS, Jan. 27.

The Overland mail with San Francisco dates to the 3d inst., has arrived here. No through passengers came with it.

The California Legislature is composed of 77 Lecompton democrats, 23 anti-Lecompton democrats, and 14 republicans.

There was over half a million dollars in the treasury at the close of the year

The President's Message reached Placerville via Salt Lake on the 1st of January, in seventeen days from St. Josephs.

California and Oregon are to be connected by telegraph.

The new Idria quicksilver mine, situated on the border of Monterey and Mercer Counties, was being opened and worked with a good prospect of success.

There was a large deficiency in the treasury of San Francisco, and it was feared the July interest on the bonded debt would not be paid.

Fraser River accounts were to Dec. 27th. The weather was moderate, and mining prospects favorable.

MACON, Ga., Jan. 27.

While little Mary Marsh, of the Marsh troupe, was performing here on Wednesday night, her dress caught fire, and she was so badly burned that her physicians despair of her recovery. Mrs. Marsh and Miss Georgiana Moseley were also severely but not dangerously burned.

ST. LOUIS, 27 h.

The Constitutional amendment limiting the State debt to $30,000 000, passed the House to-day by a vote of 106 to 18. The amendment had previously passed the Senate.

Legislature of Maine.

WEDNESDAY, Jan. 26th.

In the Senate,

Mr. Burpee, from the Committee on Mercantile Affairs and Insurance, reported a bill to amend the charter of the Piscataquis Mutual Insurance. Read once, the rules suspended and the bill passed to be engrossed.

Mr Fletcher, from the Committee on the Judiciary, reported order of notice on the petition of Rufus Dwinal, for an act making the owners of sawmills answerable for the acts of their tenants in certain cases.

A communication was received from Noah Barker, signifying his acceptance of the office of Land Agent.

Mr. Marshall presented the remonstrance of Nelson Gilkey and 124 others, of Islesboro, against the passage of any bill for the formation of a new county, by taking certain towns from Lincoln and Waldo. Referred.

Petitions to be expressed—Bill to incorporate the Oriental Powder Company.

In the House,

Mr. Lebroke, from the Judiciary Committee reported legislation inexpedient on orders relating to repealing and increasing bounties on wild animals.

Same gentleman reported that the bill referred to the present Legislature by the last, entitled "an act to abolish punishment by death" ought not to pass. These reports were severally accepted.

Resolve authorizing the payment of $10,000 to the trustees of the Maine State Seminary, was read the second time and passed to be engrossed.

A bill relating to the Grocery Bank of Bangor was presented, and referred to the Banking Committee.

THE CHEAPEST AND HANDSOMEST

Weekly Paper ever Published!

One Dollar a Year.

The New York Mail,

W. E. HILTON & CO.,

Publishers and Proprietors.

THE first number of the new volume will be issued January 29th, and contain the commencement of a new and brilliant story, from the pen of a well known and justly popular writer—In conception and detail it presents a freshness and vigor of tone at once irritable and enchanting. The author depicts the varied phases of humanity with such point and pathos as to elicit a responsive echo in the heart and mind of every reader, and while it abounds with thrilling and continuous incidents, it inculcates a morality so pure and a love so holy, as to merit the earnest commendation of all classes.

The leading characteristics of THE MAIL will be its *Unprecedented Cheapness, Illustrated and Attractive Stories, by popular writers, Terse and Piquant Editorials*, Graphic Sketches, Original Poetry, Wit and Humor, Gems of Thought, and a summary of the Events of the Week.

THE MAIL will rely entirely on its literary merits for a generous and enduring support. It will be printed on fine paper, from new and the latest styles of type, affording a fair specimen of the great perfection attained in the Typographic art; and its extraordinary low price must fairly entitle it to the distinction of being *the Cheapest and Handsomest Weekly Paper in the United States.*

Our only Terms: One copy, one year, $1; two copies one year, $1,50; four copies, one year, $3.

Orders for subscription, to commence with the first number, should be forwarded without delay.

CAUTION TO THE PUBLIC.

On account of the numerous frauds at I imposition on travelers those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line as below

By order of the Post-master General, the United States Mail steamers will hereafter be dispatched from New York to Aspinwall, on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense* This is the only line giving entire Through Tickets, guaranteeing no detention on the Isthmus

Transit made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats in fever and ague, and 240 miles of dangerous lake and river navigation, over rocks and shoals

Arrangements have now been completed so that the regular U S Pacific Mail steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mail and passengers, thus securing passengers by the Mail Line a sure and *short* passage, with the greatest comfort and safety to health

Tickets must be signed by one of the Company's Agents to entitle them to be recognized by the Agents of Panama, and tickets thus signed can be obtained of the only authorized Agent for the U S and Pacific Mail Steamship Companies, in this city C L BARTLETT, Agent

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when this water proof thus is remedied by the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often in cold with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time I can therefore in all confidence recommend it to the public as the best article in the market.

THE LUXURY AND PROFIT OF
HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Dowd' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights

For sale, fifty swarms of Bees with the new hives

This House has been thoroughly repaired, painted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P & K Railroad to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage NATHAN PERRY, Jr.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army. It is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U S. Mint, Mr Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets
Bills of Exchange—$25 for 1000 sheets
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts per lb
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County, N J, of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York

American & Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S Patent Office, Washington under the Act of 1837,)
76 State St., opposite Kilby St.,
BOSTON

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service as moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors

TESTIMONIALS

"I regard Mr Eddy as one of the *most capable and most careful* practitioners with whom I have had official intercourse" EDMUND BURKE, Commissioner of Patents

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure them an early and favorable consideration at the Patent Office EDMUND BURKE, Late Commissioner of Patents
Washington, February 8 1858

Mr R H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such substantially great success I think and believe is due in great measure to the diligence and ability with which he has prosecuted all the applications in dispute. In fact I believe some patents, as they may be sure of having the most faithful attention and the most skillful counsel in their cases and at very reasonable charges JOHN TAGGART"

From Sept 17 h, 1857, to June 17th, 1858, the subscriber, in course of his large practice made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents

T. C Butler, Esq

Dear Sir —During the last year I have sold some 300 packages of your Miller s Condition Powders for Horses and Colts and in no instance that I have heard of, have they failed of giving entire satisfaction

I regard them as standing at the head of all Horse medicines now in the market, and am sustained in this opinion by all the stable keepers and owners of horses who have used them in this vicinity

I cheerfully give my testimony in favor of your Powders, and advise all interested to give them a trial Very respectfully yours,
